

Annual Disclosure Statement for the 12 months ended 31 March 2016

Generate KiwiSaver Scheme

Focused Growth Fund

What is the purpose of this statement?

This statement provides key information about the Generate KiwiSaver Scheme Focused Growth Fund. It tells you how the fund has performed and what fees it charged, and will help you to compare it with other funds. We prepared this statement in accordance with the KiwiSaver (Periodic Disclosure) Regulations 2013. This information is not audited and may be updated.

Description of the fund

The objective of the Focused Growth Fund is to provide a higher growth investment return for members over the medium to long term through investment in a portfolio of actively managed cash, property and infrastructure assets and international equities managers.

Total value of the fund	\$84,025,781.07
Number of members in the fund	13,284
Date the fund started	16 April 2013

How has the fund performed?

	Past five years	Past year
Return (after deductions for fund fees and tax ¹)	N/A	4.08%

How has the fund performed in the past?

This shows the return after fund fees and tax for each tax year since the fund started and the average annual return since the fund started. It's important to note that this doesn't tell you how the fund will perform in the future.

What fees were members charged?

The returns above are after deductions for fund fees.²

Over the past year these were:

Total fund fees	1.77% of members' investments
Annual management fee	0.95%
Performance-based fees	0.00%
Other fees and costs	0.82% ³

Members were also charged membership fees⁴ of \$36 over the year.

Example of how this applies to a member

Sarah had \$10,000 in the fund at the start of year and didn't make any further contributions. At the end of the year, Sarah received a return after fund fees and tax were deducted of \$408 (that's 4.08% of her initial \$10,000). Sarah also paid \$36 in membership fees. This gives Sarah a total return of \$372 for the year.

What does the fund invest in?

Actual investment mix

This shows the types of assets that the fund invests in. In the graph below 'Cash and cash equivalents' includes the value of foreign exchange hedging derivatives related to the fund's off-shore investments investments.

Target investment mix

This shows the mix of assets that the fund generally intends to invest in.

Cash and cash equivalents	1%
New Zealand fixed interest	0%
International fixed interest	0%
Australasian equities	16.5%
International equities	66%
Listed property	16.5%
Unlisted property	0%
Other	0%

Notes

- Returns in this statement are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax rate may be lower.
- Fund fees are charged as a percentage of a member's interest in the fund (i.e. as a percentage of their KiwiSaver account balance).
- Other fees and costs comprise: (a) operating costs directly incurred by the fund; and (b) annual management fees, performance-based fees and operating costs incurred by underlying funds the Fund invests into. For some of the underlying funds that the Fund invests into estimates were used when deriving annual management fees, performance-based fees and operating costs. The management fee estimate is calculated by either (i) the annual management fees as a percentage of average NAV from the most recent period whereby the information is available or (ii) the sum of the Fund's monthly average investments in the underlying funds concerned, multiplied by the underlying funds' percentage annual management fees. Where otherwise not available the performance fees were calculated using the same performance criteria as that stated by the administrators of the underlying funds and applied to FY16 performance. We estimate that the performance fees of the underlying funds were 0.09% per annum. Performance-based fees are subject to market movements and external manager performance and therefore are likely to differ from period to period. The operating costs for the relevant period for some of the underlying funds were not available. In these instances the operating costs estimate is calculated by either (i) the operating costs as a percentage of average NAV from the most recent period whereby the information is available or (ii) the estimate is the sum of the Fund's monthly average investments in the underlying funds concerned, multiplied by the underlying funds' percentage annual operating costs.
- Membership fees are the fixed dollar charges for membership in the KiwiSaver scheme.
